KING EDWARD'S VISIT TO ITALIAN MONARCH

Approaching Event Is Attracting Much Attention.

COMMENT OF GERMAN PRESS

One Writer Says Public Opinion in Germany Sees in King Edward's Course an Attempt to Disturb the European Equilibrium.

Berlin, April 18.—King Edward's approaching meeting with King Victor Emanuel at Goeta is attracting much attention in the German press, which comments on the event as being an effort to isolate Germany and win Italy away from the triple alliance. An article in the Cologne Gazette in this sense is being widely discussed because it is believed to have been inspired from Berlin.

The writer says public opinion in Germany sees in King Edwafd's course an attempt to disturb the European equilibrium which is calculated to awaken misgivings regarding his disarmament proposal, and, finally, warns Great Brtain that "war with Germany would be dangerous for any opponent or any coalition of opponents."

This sharp language is interpreted by the Tageliche Rundschau as meaning that the German government has grown weary of the "English game of hide and seek, and the comedy of peace and disarmament."

At the foreign office, when attention was called to the Cologne Gazette's article, it was stated that it expressed only the editorial opinion of the paper, that the German government was in no way responsible for such views, and that the government officials would have taken steps to prevent their publication if they had been known in advance. The foreign office does not see any reason for disquiet in connection with the meeting of the king of England and Italy, since Italy knows that her independence is better guarded by being a member of the triple alliance than if she is thrown wholly on Anglo-Franch support.

The fatal tragedy shocked the people of the village when it became known, as both Dr. and Mrs. Patterson are related to the best families of the state. For some time the marital relations between the two have been anything but pleasant, and difficulties have occurred on other occasions.

The conference will probably be held Thursday. It is known that the defendant's family fearing the effect on Thaw's health of the confinement in prison during the long summer months, are most anxious to arrange for his temporary release, and if Mr. Jerome could be persuaded to listen to their pleading, they are willing to give assurance that Thaw would be properly cared for and be produced for trial.

As the city magistrates have agreed to work in harmony with the police in arresting men found with concealed weapons, it is said the habit now so prevalent among the Italian innabitants of New York of carrying revolvers, dirks, knives and stilettoes, will soon be wiped out.

All offenders are held in heavy bail, and the magistrate announced that in every proven case the offender will have to suffer a term in prison.

PERPETUATION OF STATE RIGHTS

Plea Made by Congressman Hammond—Rap at Roosevelt.

Chicago, April 18.—A plea for the perpetuation of state rights was made by Congressman Winfield S. Hammond, of Minnesota, in a talk at the twelfth annual banquet of the Holland society of Chicago.

Mr. Hammond took a covert rap at President Roosevelt by declaring that in view of recent events, one might be led to believe that the executive department of the government has become well nigh extinct.

The speaker's subject was the "Sovereign State." "It is a thing bred in us to have the government as close to us as possible," he said. "When it comes to regulating insurance and child labor, why should we run to Washington the minute anything is wrong? We are becoming a little too paternalistic."

SOUTH PLEDGES HER SUPPORT TO BRYAN

Prominent Democratic Leaders Give Nebraskan Ovation.

BANQUET IS HELD AT BROOKLYN

Speakers at the Gathering Say that the People of the South Are United For William J. Bryan in 1908 Presidential Fight.

New York, April 18.—With William Jenning Bryan as the chief attraction, the democracy of Brooklyn, in observance of the anniversary of the birth of Thomas Jefferson, engaged in an enthusiastic democratic reunion and demonstration. The function was the annual dinner of the Brooklyn Democratic club, and the representative followers of Jefferson in Brooklyn occupied to overflowing "The Assembly," the largest of the city's public dining halls.

A call to prominent democrats in many states, near and distant, was included in the arrangements for the celebration, and the presence of many of these lent peculiar interest to the dinner.

Foremost was Mr. Bryan, who, concluding a day of vigorous action, which embraced four public addresses, was given a splendid reception, and who delivered a characteristic discourse taking for his subject "Thomas Jefferson."

Mr. Tyler, of Virginia, went on to say that the people of the south are practically united for Bryan, and that the mention of his name is as potent in flashing a magic spell of enthusiasm as it was in 1896. He believed that millions of American voters would never forsake the banner of Mr. W. J. Bryan.

A message from the southern democracy was delivered by representative Ollie James, of Kentucky, who added, an emphatic word in behalf of the old democratic faith.

"We would guard with vigilance and courage," he said, "state rigats and local self-government, but the democracy believes that the democratic party stands as a great divide between monopolistic greed on the one hand and socialistic ruin on the other.

Congressman James hailed Mr. Bryand as one of the pioneers of the democratic party, and added:

"The southern democracy tonight gathers about William J. Bryan and from the blooming flowers of Florida to the waving blue grass of Kentucky the democracy of all Dixie proclaims that it wants Bryan to lead in the next great fight. For 12 long years we have stood all kinds of weather, but in all those years Bryan never broke his vow and we would not change for a new leader now."

VISITING COMMITTEE INSPECTS UNIVERSITY

Reached Gainesville Thursday and Spent the Day Here.

WERE APPARENTLY PLEASED

Dined in Mess Hall of University—Escorted to College by Committee of Distinguished Citizens Accompanied by Chairman Board of Control.

The joint committee appointed by the Legislature to visit the State educational institutions for higher education, and which is now on a tour of inspection of the various institutions, paid the State University of Florida an official visit Thursday.

The committee comprises Senators Baker of Sumter, Neel of Walton and Crill of Putnam, and Representatives Willis of Levy, Knight of Citrus, Kilgore of Sumter and Wartmann of Marion. Owing to other important engagements Representative Wartmann could not be present with the committee, but expects to reach here Saturday, when he will be shown through the University.

Hon. N. P. Bryan of Duval, chairman of the Board of Control, accompanied the committee.

The committee was taken in carriages by Mayor Thomas, Col. W. W. Hampton, Col. J. M. Rivers and W. N. Wilson, comprising a committee, to the University, where they were cordially greeted by President Andrew Sledd and other members of the faculty. They made a thorough inspection of the buildings, grounds, etc., and appeared well pleased with what they had seen.

The committee dined at the University mess hall, partaking of the same bill of fare which is furnished the students. The fact that they seemed to relish the meal is best evidence that they were satisfied with the culinary department.

The committee left in the afternoon. A report will probably be made by the first of the coming week.

A New Roof Coating.

I wish to say to those in need of having their roofs repaired, I have a coating, just introduced by L. S. Dome of Ohio, that speaks for itself. A trial will convince anyone that it's far ahead of anything on the market, the body being coal tar with graphite and six other ingredients. We put it on hot in 24 hours. It's a firm, hard cement roof that will stand all kinds of exposure for years.

Don't tear off your old roof. Let us apply our coating, making them last several years longer, at the same time a fire protector.

We are ready to do your work at a reasonable price. Give us a trial and save painting every two or three years.

HAIL STORM DID IMMENSE DAMAGE

Jacksonville Suffered Severe Loss of Property Thursday.

TWO MEN WERE KILLED

Dixieland Park and Wheelmen's Club, Together With Other Valuable Property, Reported Destroyed—Hail Fell to Depth of Six Inches.

Information was received in this city Thursday by telephone of a disastrous cloudburst and hail storm, which visited Jacksonville Thursday afternoon, lasting from 2 to 3 o'clock, which wrought all kinds of destruction to property, and caused the death of two persons—a white man and a negro, the names of whom could not be learned. Several persons were also seriously injured.

The report states that great lumps of hail fell, covering the streets at a depth of six inches.

Horses became frightened and ran away, throwing their drivers violently to the ground and causing injury. In several instances, having become unmanageable, horses ran into the river, pulling their vehicles behind them, and were drowned.

Dixieland Theater Gone.

It was said that the magnificent Dixieland Park, together with the theater and other buildings, located across the river and recently completed, was completely demolished. This was one of the finest amusement resorts in the South, costing large sums of money. The elegant building of the Wheelmen's Club is also said to have been destroyed.

VISITORS NOT ALLOWED.

Elks' Club Has Been Thronged With Those Who Were Not Members.

There seems to be a misunderstanding as to the nature of the visitors to the Elks' club rooms here, as there are frequently visitors who are not entitled to the privileges to the club, not being members of the order.

The Elks is an order originated and existing for the benefit of its members, who pay for the privilege in the matter of membership and dues. It is true that any Elk, anywhere in the United States, is entitled to the rights and privileges of a club, but no person who is not an Elk has authority to invade an Elks' home and accept the hospitalities of Elks unless he be a member of the order, or unless he holds a "Courtesy card" issued by the members of the board of trustees of the lodge in which he is being entertained.

No resident of a town or city where there is an Elk's lodge is entitled to the privileges of the club rooms on any condition, as this is a ruling of the Grand Lodge which cannot be disobeyed.

CLERK AND CARRIER.

Examinations Will Be Held Under Direction of Civil Service Saturday.

In compliance with the official announcement, a civil service examination will be held in this city Saturday for positions of clerk and carrier in the postoffice department.

These examinations will be held in the city hall, and will begin at 9 o'clock. The former examinations have been conducted by Benj. T. Arnow, who, by virtue of his authority as an employe of the postoffice, has been qualified to conduct the same. Mr. Arnow having been elected marshal, and his substitute, J. E. Wainwright, being absent from the city attending the session of the United States court at Tampa, the question now arises, who will conduct the examination?

The examination has been called, the applicants will be here, and the necessary arrangements will probably be made to conduct the same.

When you buy Lard you get more than you bargain for. It's heavier in your stomach than on the scales.

Lard is a foe to digestion. If you had the stomach of an ostrich you could hardly withstand the ravages of lard-soaked pastry. You have probably found this out and already given up the eating of pastry. 'Tis wholly unnecessary! Anyone can eat and digest food cooked with *Cottolene*, the perfect shortening. It is a pure vegetable product, made from the best beef suet and choicest vegetable oil. It is neutral in taste and odor.

Cottolene is never sold in bulk. It is put up in carefully sealed tin pails. When you buy lard you have no protection as to quality—you simply know you are getting LARD—never mind the grade, it's just L-A-R-D. On the other hand, every pail of *Cottolene* is uniform—the product is guaranteed. You take no chances whatever.

In the face of these facts just ask yourself if you can afford to use hog lard when you can get pure, healthful, nutritious *Cottolene*.

COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2c stamp, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. On roll-call, bill was passed by vote of 26 to 2.

Read third time in full and passed by vote of 25 to 2.

By Mr. West of the Fourth—A bill to be entitled an act to provide for compulsory education in the State of Florida and to provide a penalty for the violation of the same. This bill was reported unfavorably by the committee on education. Senator Buckman spoke strongly against the measure and stated that he believed the law would not only be not beneficial but would under existing conditions be positively injurious. Mr. West defended his measure earnestly and illustrated the experience in his own county and said that when parents would not send their children to school they should be made to do so.

Senator Beard objected to the bill on the theory of paternalism and did not think the government should invade the home. On roll-call the bill was lost by vote of 7 to 15.

By Mr. Adams—A bill to be entitled an act to amend Section 112 of Chapter 5261, Laws of Florida, entitled "an act to define the grades of instruction which shall be taught in the uniform system of public schools of Florida; to aid and encourage the establishment of public high schools, to prescribe the conditions, and to make appropriations therefor. PRESBYTERY HAD A SUCCESSFUL SESSION

Well Attended and Was Full of Christian Interest.

NEW OFFICERS ELECTED

Rev. I. W. Waddell of Archer Succeeds Rev. Dr. W. E. Boggs As Moderator. Closing Sermon Was Delivered by Rev. E. W. Way of Fernandina.

The Presbytery of Suwannee closed a most interesting three-day session with the First Presbyterian Church of Gainesville Thursday night, when the closing sermon was delivered by Rev. E. W. Way, formerly pastor of this church, but now of Fernandina.

Mr. Way was quite popular among his congregation here, many of whom were preesnt Thursday night to hear his address, which was an eloquent, impressive and masterly effort.

The business sessions of the Presbytery were conducted in the morning and afternoons of the three days' while religious services were held in the evening.

The following officers were elected for the ensuing term:

Rev. I. W. Waddell, Archer, moderator, succeeding Rev. Dr. W. E. Boggs of Jacksonville; Christopher Matheson of this city, recording clerk; Rev. L. R. Lynn of Palatka, stated clerk (hold-over); J. D. Matheson of this city, treasurer, re-elected. Dr. Waddell was also elected commissioner to the general assembly, to be held in Birmingham, Ala., in May.

The session was well attended, and a deep interest was manifested.

DON'T DIE AT 45.

Cure the Indigestion Which is So Liable to Lead to Apoplexy.

Rush of business, eating too fast and too much, excesses of any kind, soon result in indigestion. Then when the digestive organs cannot care for the food properly the coats of the blood vessels in the brain get little nourishment, become brittle, and finally yield to the fierce blood pressure. One is then said to have a "shock," to be paralyzed, or to die from apoplexy.

People suffering with headache, giddiness, palpitation, sleeplessness, bad taste in the mouth, drowsiness, coated tongue, distress after eating, specks before the eyes, and any other of the many distressing results of a weakened stomach, should profit by the discovery of Mi-o-na stomach tablets.

In recent years the greatest advance in medicine has been in the study of diseases of digestion and nutrition and no other prescription has proven itself of as much value as Mi-o-na. It is relied upon as a certainty today in relieving the worst troubles of digestion and assimilation and making a complete cure.

The strongest proof that can be offered in substantiation of the claims that Mi-o-na will cure the worst forms of stomach trouble, cancer excepted, and give immediate relief in indigestion, is the guarantee that J. W. McCollum gives with every 50-cent box of Mi-o-na to refund the money unless Mi-o-na cures. A guarantees like this must inspire confidence in Mi-o na. J. W. McCollum takes the whole risk and the remedy will not cost you a penny unless it cures.

When You Take Cold

One way is to pay no attention to it; at least, not until it develops into pneumonia, or bronchitis, or pleurisy. Another way is to ask your doctor about Ayer's Cherry Pectoral. If he says, "The best thing for colds," then take it. Do as he says, anyway.

MISS JULIE FLORENCE WALSH

WOMEN SUFFER

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance.

How many women do you know who are perfectly well and strong?

The cause may be easily traced to some feminine derangement which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, dragging sensations, flatulency, nervousness, and sleeplessness.

These symptoms are but warnings that there is danger ahead, and unless heeded, a life of suffering or a serious operation is the inevitable result. The best remedy for all these symptoms is

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs. No other medicine in the country has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female ills.

Miss J. F. Walsh, of 328 W. 36th St., New York City, writes:—"Lydia E. Pinkham's Vegetable Compound has been of inestimable value in restoring my health. I suffered from female illness which caused dreadful headaches, dizziness, and dull pains in my back, but your medicine soon brought about a change in my general condition, built me up and made me perfectly well."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, Inflammation and Ulceration, and organic diseases. It is invaluable in preparing for child-birth and during the Change of Life. It cures Nervous Prostration, Headache, General Debility, and invigorates the whole system.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

TO TAKE CASE IN HAND.

Roosevelt Will Decide Matters Relating to Harriman Combination.

Chicago, April 18.—A dispatch to the Tribune from Washington says:

President Roosevent proposes to take into his own hands the determination as to whether an attempt shall be made to break up the Harriman railroad combination, or not, and has come to the conclusion that it is his duty to study the case from beginning to end.

The president has been placed in a position of antagonistm to Mr. Harriman and on that account he is particularly desirous that no step should be taken by any department of the government in such a way as to leave the impression that it was the result of personal hostility on the part of the president himself.

To satisfy hmself as to the exact situation, the president proposes to read all the testimony taken by the interstate commerce commission on this subject. Then he will have a conference with Attorney General Bonaparte and will ask the head of the department of justice to apply to the facts the president submits to him, the general law in the case, and particularly that laid down by the United States supreme court in the Northern securities case.

DUG WAY TO LIBERTY.

Twelve Convicts Escape from Durham Coal Mines.

Pittsburg, Ga., April 18.—Tuesday 12 convicts escaped from the Durham coal mines at this place.

The manner of their escape was most remarkable, as they dug their way through the top of the mine to the surface of the earth above.

Five of the convicts are white, and seven are negroes.

Thinking that there was no possible way for them to escape there was at the time no guard close to these convicts. So far none of them have been captured. The warden and a large posse are now making a close search through the mountains of north Georgia for the escaped men.

Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." J. W. Atlanta Woman Attempts Suicide.

Macon, Ga., April 18.—A well-dressed woman, who gave her name as Mrs. I. H. Stanley, of Atlanta, left Macon Tuesday, after making a desperate effort at a hotel here Sunday night to end her life. She drank a large quantity of laudanum and was near death when a bell boy discovered her, while her room door stood ajar. Dr. Gostin was called and administered remedies.

FEARFUL ITCHING BURNING SORES

Boy in Misery 12 Years—Eczema Spread Over Body in Rough Scales, Cracked, Inflamed, and Swollen—Case Pronounced Incurable, but Completely Cured by Two Sets of Cuticura Remedies.

HIS SKIN NOW FINE AND SMOOTH AS SILK

"I wish to inform you that your wonderful Cuticura has put a stop to twelve years of misery I passed with my son. As an infant I noticed on his body a red spot and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales. At night it would be cracked, inflamed, and badly swollen, with terrible burning and itching. When I think of his suffering, it nearly breaks my heart. His screams could be heard down-stairs. The suffering of my son made me full of misery. I had no ambition to work, to eat, nor could I sleep.

"One doctor told me that my son's eczema was incurable, and gave it up for a bad job. One evening I saw an article in the paper about the wonderful Cuticura and decided to give it a trial.

"I tell you that Cuticura Ointment is worth its weight in gold, and when I had used the first box of Ointment there was a great improvement, and by the time I had used the second set of Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. Michael Steinman, 7 Sumner Avenue, Brooklyn, N. Y., April 16, 1905."

FOR WOMAN'S EYE

Too much stress cannot be placed on the great value of Cuticura Soap, Ointment, and Pills in antiseptic cleansing, thus affording pure, sweet, and economical local and constitutional treatment for inflammations, itchings, irritations, relaxations, displacements, and pains, as well as such sympathetic affections as anæmia, chlorosis, hysteria, nervousness, and debility

CONVENTION RECONVENES.

Several New Propositions To Be Submitted by Delegates.

Guthrie, Okla., April 17.—The constitutional convention, which had adjourned a month ago after drafting a constitution for the proposed new state of Oklahoma, reconvened here Monday to finish its work by signing the engrossed documents.

During the intermission it has been discovered that the convention's power and the recent decision of Judge Burford, of the Oklahoma supreme court curtailing the election board's authority, will force the convention either to draft an entire new election ordinance or to ignore the order of the court.

President Murray and some of the other leading delegates will, it is said, advise the convention to disobey the injunction.

It is expected that several new propositions will be submitted by delegates and it is impossible to say how long the convention will remain in session. After the constitution has been signed it will be ready for submission to the people at the special election on August 6 next.

LYNCHING SEQUEL TO SHOOTING

Negro Is Hanged in Louisiana—Fiddled by Bullets.

Bola, La., April 18.—The sequel to the shooting of five white men and two negroes at Bunkie, La., last Sunday, was the lynching of the negro, Charlie Strauss, near here, Tuesday. A party of masked men took him away from the deputies, who had arrested him, and, it is said that the deputies offered no resistance.

The negro was taken into the woods and hanged to a tree, after which many shots were fired into his body. He made no statement about the attempted rape with which he was accused. The coroner took charge of the body at daylight.

This was the second attempt in two days to lynch Strauss, the first one on Sunday night having resulted in the serious wounding of five white men. Strauss had been taken from the Bunkie jail and escpaed during almost total darkness, while his captors were shooting promiscuously. It was also alleged that negroes fired into the lynching party. The race feeling thus stirred up, was made worse by the fact that previous to the attempted lynching, the negroes had been shot at Bunkie while quarreling with members of their race.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. J. W. McCollum & Co.

SHORT TALKS BY L. T. COOPER.

CHRONIC CRANKS.

MR. J. R. SMOCK.

We all have met people who are continually kicking. Life seems a terrible thing to them. They seldom smile. Something dreadful is going to happen, nothing is ever just right, and they worry and fret and complain from morning till night. Their trouble seems to be just a bad disposition but this is seldom so. In most cases there is one of two things the matter with them; either their nerves or their digestion is responsible. Both come from the same thing---stomach trouble. A man or woman whose nerves are tied in knots is bound to be mighty poor company. The same thing is true if what they eat don't digest properly. No wonder they grumble, I don't blame them.

I have seen Cooper's New Discovery change the whole disposition of people in a month's time simply by getting their stomach in shape again. Even the expression on their faces was altogether different. The worried, tired, fretful look changed to a peaceful happy expression, and the lines of care disappeared altogether. Many people tell me about this in letters. They seem to think it a miracle. It is'nt. It's just the stomach working again.

Here's a case of this kind:

"I suffered with my stomach for thirteen years. Nothing I ate seemed to digest. I also had chronic constipation, and was tired, dull, irritable and despondent all the time. I found it difficult to attend to my duties as traction agent at this place."

"Six different doctors treated me and all gave different opinions."

"I began taking Cooper's New Discovery, and to my surprise it helped me from the first. I have gained ten pounds in three weeks and am feeling fine. My work now is a pleasure, where before it was drudgery." J. R. Smock, Cicero, Indiana.

The Indianapolis Sun thinks that so far as the dispatch "Mr. Taft went down a big hole" is concerned, the latter was superfluous. Still, it might have added to the message to make known that the hole was not especially prepared for the Secretary by Secretary Metcalf.

CHANGE IN CABINET EXPECTED

There are stories afloat of strife in the cabinet. Just how much truth is behind some of them, it is hard to say, but it is guessed by some long-range guessers that Secretary Root will not stay out this administration as Secretary of State. He took the position rather under protest. He gave up a very large and lucrative law practice in New York, congenial surroundings and congenial friends to take what he believed was a place where he would really be serving the country. That he has proved an able diplomatist all of the diplomatic corps in Washington are willing to tessity, and the settlement of the Alaskan boundary dispute will stand as more of a mount to his ability than anything he would ever have been likely to do had he become President. But it is said either with or without good reasons that he is dissatisfied with his present relations to the administration. There is no denying that the influence of Secretary Taft with the President has been greater than that of Secretary Root, and were it not that he has some important things he wants to accomplish with South America, it is probable the guessers say he would quit the Cabinet this summer. As it is, he is more or less bound up with securing recognition of the Drago Doctrine as a complement of the Monroe Doctrine, before the coming Hague Tribunal, and if he accomplishes that, he will have made a record that few Secretaries of State have equalled. Thereafter it is understood he will return to New York.

"INSANITA INGRATITUENDA."

If the published reports are true that Harry K. Thaw, the noted New York murderer, has dispensed with the services of his leading attorney, Delphin M. Delmas, it looks as though Thaw's afflictions might be a combination of insanity and ingratitude, hence his condition, for want of a more appropriate term, should be designated "insanita ingratituenda," which would sound just about as well, and carry probably a more forceful meaning, than many terms which have been applied by the experts on the witness stand. But the special commission declared Thaw was now in his complete and proper mind, and because Attorney Delmas, in an endeavor to save him from the electric chair, endeavored through an alienist to bring out the fact that Thaw was suffering from temporary mental derangement on the night he put out Stanford White's light, Delmas got his walking papers. Thaw appears from his actions to be a "peculiarly funny" sane man.

We all admit that telephones are a great convenience, yet they occasionally make a man feel like breaking the third commandment. Some times on a busy day when work is rushing and your 'phone rings twenty-eight times and only two rings are of any importance, the other twenty-six being calls from some one wanting to speak to your help—this takes two from their work twenty-six times, and some one has to pay for all that lost time in addition to the annoyance. It doesn't look just right, now does it? During working hours, 'phones in business houses, at least, should be used for business only.

Senator Humphreys' joint resolution proposing an amendment to the State Constitution providing for absolute State prohibition, is a noble move. Our neighbors, the Georgia saloonkeepers, would not object to this amendment, as it would materially increase their coffers in the amount of Florida money in exchange for that which causes man to frequently bend his elbow.

The North Atlantic fleet is now waiting in Hampton Roads to welcome the warships of foreign nations which will come to participate in the opening ceremonies of the Jamestown Exposition. How sweet it will be for foreign powers to greet each other with ceremonies of peace instead of the thundering of cannon in aggressive and disastrous war. It is even more gratifying, following the international peace commission in New York. It seems that these instruments of war were sent by Providence as emblems of peace on earth.

The fact that Mr. Harriman, the most influential and corrupt railroad magnate, was consulted by the President about his recommendations to Congress on railroad rate legislation is the more important question than the raising of a corruption fund by the corporation magnates. It is about analogous to a Prohibition convention calling in the most influential saloonkeeper to advise the committee on resolutions what to put in the platform. No wonder the railroad rate bill is ineffective.

If you are superititious about the number 13 you had better give us your quarter dollars, for on each one are 13 stars, 13 letters in the scroll of the eagle's back, 13 leaves on the olive branch, 13 arrow heads and 13 letters in the words "quarter dollar." Now it's not safe to keep them, so just bring them in and get credit on your subscription for the full amount.

A project has been suggested for the creation and maintenance of a standing army for Cuba, composed entirely of native troops. This will work like a charm so long as the government can keep the troops from fighting among themselves.

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

A DANGEROUS HOBBY

To Study the Ways of Rogues May Make a Rogue of You.

CRIMINALS BY SUGGESTION.

An Abnormal Interest In the Methods of Lawbreakers Is Liable to Arouse Even In a Normally Honest Man a Spirit of Emulation.

"It is quite possible for a normally honest man to become a criminal by suggestion," was the curious statement made by a well known New York detective who was in Washington recently on business. "I am referring now to men who permit themselves to develop an abnormal interest in the ways of professional criminals.

"I wouldn't call it a safe thing for any man to attempt to figure out in his mind what he would have done to escape arrest had he been in the boots of some captured criminal whom he had read about. But that's a thing that thousands of men who think they're honest are doing all the time. When there's a big man hunt on, they follow it with acute interest, put themselves in the place of the hunted man and dope out schemes of escape for him. A certain percentage of such calculators are bound to experience the hankering sooner or later to put their schemes for evading the officers of the law into practical operation, if only for the foolish purpose of finding out how their plans will work.

"Working in New York now on a salary of a few dollars a week is a broken middle aged man who used to be the treasurer of a bonding and indemnity company at a salary of $10,000 a year. This man developed a queer bug for mentally tracing the movements of fugitives from justice, especially embezzlers.

"I was acquainted with this man, and he endeavored to pump me for all I knew about such cases. He liked to talk about the fleeing ones. He laid out routes for them in his mind. He knew the extradition laws by heart and had at his fingers' ends every country in the world to which a pursued man could run without fear of extradition. Once I gave this man a talking to about this hobby of his.

"'You'd better can that stuff,' I told him, 'or it'll begin to fester in the back of your head and get you going. I've known such things to happen, and no man is more than one-eighth as strong as he thinks he is.'

"Well, he only laughed and told me that he was interested in the subject just as other fellows were interested in old fiddles or rare postage stamps.

"'Anyhow,' he laughingly added, 'if I did jump and you were sent after me you'd never be subjected to the embarrassment of taking me, because you'd never get me. If I couldn't beat all of these pinheaded fugitives in making a safe and sure getaway, so that none of you would ever nail me, I'd want to have my head bagged.'

"Not more than six months after that he made his jump, and I got him as easy as hotfooting a banana peddler. I went straight to the little villa he had taken outside Genoa, Italy. When I nailed him, he was the most stupefied man you ever saw, for he'd made his hop at the beginning of his month's vacation and had laid all of his plans with what he thought was masterly adroitness, according to his chart, with thirty days' margin of time to accomplish the scheme in. In consideration of his returning most of the swag he got only eight years.

"That man put himself in the way of becoming a criminal by suggestion. His studies of the movements of fleeing absconders developed an irresponsibility in him and an ache to put to the test the getaway plans that he spent so much of his time in doping out while yet he was an honest man.

"There is no calculating how many shoplifters, especially young women, are led to try that sort of thing through hearing and reading about professional lifters. Not long ago in a New York department store a girl was nailed while trying to lift a pair of inexpensive gloves. The girl had an account at that store for any amount that she chose to spend up to thousands. She wasn't arrested, of course, but was led to the rear office and chided by the head of the firm in a gentle way.

"'Perhaps you should put yourself in the hands of a specialist for treatment,' he said to the girl, who wept softly. 'With you, beyond a doubt, it is kleptomania. It must be.'

"'No, it isn't,' replied the girl, with the utmost candor. 'It's not kleptomania at all. I don't believe in such silliness. I just wanted to see if I could do it without being caught; that's all. A lot of girls were talking about shoplifters—they seemed so fascinating—and the girls dared me to try. I meant to exhibit the gloves to them as a trophy and then send them back to you by mail anonymously. You won't ever breathe a word of it, will you?' And the head of the firm, knowing pretty well which side his bread was buttered on, of course only tells the story without using the girl's name, but the incident illustrates an occurrence which is common. Plenty of women lift things from counters just to see if they can do it without being caught, and when they succeed in getting away with it once they try it again and again and allow the habit to become fixed upon them until the inevitable day of discovery arrives.

"The people who become criminals by suggestion are nearly always the veriest plugs at any line of work they take up, for first rate criminals are born, not made by suggestion or in any other way."—Washington Star.

Stanton Could Swear.

One day President Lincoln saw Senator Fessenden coming toward his office room. Mr. Fessenden had received the promise of some appointment in Maine for one of his constituents. The case had been overlooked. As soon as Mr. Lincoln caught sight of the senator he saw Fessenden was angry and called out, "Say, Fessenden, aren't you an Episcopalian?" Mr. Fessenden, somewhat taken aback, answered, "Yes, I belong to that persuasion, Mr. President." Mr. Lincoln then said: "I thought so. You swear so much like Seward. Seward is an Episcopalian. But you ought to hear Stanton swear. He can beat you both. He is a Presbyterian."

An Odd Mistake.

Captain Amundsen, having lost several dogs in his expedition to the arctic regions, told some of the Netchillie tribe that he would purchase one from them. The suggestion caused consternation and was promptly refused. An explanation was demanded. The man applied to returned next day with a chubby, laughing boy on his back. "Such we do not sell," he said. Amundsen was astonished. "You wished to purchase one," said the man, seeing Amundsen's perplexity. Finally it was discovered that the Greenlandic term for "dog" was equivalent to "child" in the Netchillie language.

His Last Chance.

"Did you ever notice," said Mrs. N. Peck, "that about half the pictures in the photographers' windows are of bridal couples? I wonder why they always rush off to the photographer as soon as the knot is tied."

"I guess the husband is responsible for it," said Mr. Peck. "He realizes that it is about his last chance to ever look pleasant."

A Word For Herself.

The young widow of an old husband inscribed the following words upon her dear departed's tomb:

"To the memory of Mathurin Bezuquet, who left this vale of tears at the age of ninety-nine years, eleven months and twenty days, deeply grieved at having to leave behind him the most charming and faithful of wives."—Pele Mele.

CRIPPLED HANDS AND FEET

Marvellous Cure of Rheumatism by

MINARD'S KING OF PAIN LINIMENT

"Four years ago I was taken with rheumatism. I lost the use of my hands and had to go to the hospital, but did not get any relief. I also had it in my limbs and body and could not walk for six months. I was a patient in the Homeopathic Hospital, the Emergency Hospital, and the New England Hospital, and did not get any relief from any of them. I also went to the Fourth Grade Hospital in New York. Some of Boston's best physicians attended me and still I found no relief. For three years I could not do any work at all, but for the last year, since using Minard's Liniment, I am able to do all my housework. I think that I know the worth of Minard's Liniment better than any person who has ever suffered with rheumatism. Hundreds of people who know of my suffering give Minard's Liniment the praise. I wish that every one knew the worth of this Liniment as I do. Yours truly, Mrs. Emma B. Williams, 62 Sawyer St., Boston."

Extradition Treaty Signed.

Panama, April 18.—An extradition treaty between Great Britain and the Republic of Panama has been signed here.

Good Judgment

Is the essential characteristic of men and women. Invaluable to good business men and necessary to housewives. A woman shows good judgment when she buys White's Cream Vermifuge for her baby—the best worm medicine ever offered to mothers. Many, indeed, are the sensible mothers who write, expressing their gratitude for the good health of their children, which they owe to the use of White's Cream Vermifuge. Sold by W. M. Johnson.

The Battered Hobbyhorse.

A scarred and battered hobbyhorse, with one eye missing, its tale and mane reduced to ragged wisps of hair and a little leather saddle worn almost to fragments on its back, formed a part of the baggage carried by an aged couple in the Union station waiting room at St. Louis the other evening. It captured the interest of a crowd that gathered. The old man listened to the comments, some of them unkind jests. Then he spoke, almost in a tone of apology. "We're goin' to Texas, and we couldn't leave it behind," he explained. "You see, it belonged to our little boy that's dead. He used to set a might o' store by that old horse, and now it's all we've got to remember him by. We kept it all these years back in Indiana, and then when things got bad and our daughter down in Texas sent for us, why, we just packed up and started. Had to leave lots of things back there, but not that. We couldn't leave that, could we?" He turned to his wife. "No; we couldn't leave the horse," she said.—St. Louis Globe-Democrat.

Buying Clothes.

"I suppose everybody has some plan of making purchases," said a man holding a list of wearing apparel that he was about to buy. "Do you see those two articles I have crossed off? I am not going to buy them till the end of the season, when the price will be cut. For the same reason I am not going to lose a day in securing the articles not crossed off. The two articles I cut out I can wait for without much inconvenience. As for the others, since I have to buy them in season and pay the regular price, I will buy them at once and have at least a month and a-half's extra use of them. That makes me break even with the end of the season. I save by purchasing early and late, though the early purchases I deem most economical, particularly in things where style is a consideration."—Columbus Dispatch.

The Seat of Authority.

It is an unwritten law on shipboard, and especially on men-of-war, that the quarter deck is for the exclusive use of officers, and all good seamen remember it, in spite of their ambitions. It once happened that an ancient mariner, a "five striper," while on shore leave captured a mule. Not without difficulty he mounted the animal and perched himself as near the tail as possible. The mule objected in every way known to a mule and in ways several and unexpected.

"Jack, sit more amidships," called out an engineer officer who happened past; "you'll ride easier."

"Captain," grinned the old salt, "this is the first craft I ever commanded, and it's a pity if I can't stay on the quarter deck."
